Who we are

The Shelley was born out of a strong and genuine desire to enhance and enrich the lives of our residents. We have a wealth of experience and our objective is to be recognised as the care home that delivers the very best in personalised care and offers experiences of exceptional quality for individuals or couples.

From the moment you arrive, you will appreciate we have created a warm, luxurious and comfortable home by using superior design and by paying attention to the smallest detail which, along with our highly professional and motivated team, is all in order for us to deliver outstanding personalised care.

Accommodation is luxuriously appointed with quality furnishings, décor and standards that set us apart from other retirement and care facilities. Our beautifully decorated lounge, elegant dining room, café area, beautiful gardens and hairdressing salon all have the necessary design features to ensure appropriate care can be delivered as and when required, 24 hours a day.

What we believe

We place a very high value on the fact that each of our residents' care needs and desired experiences are different.

We believe everyone is unique: everyone has their own special likes and ways of doing things, and how they prefer to be treated and cared for.

We also know that needs can change and that it is impossible for one type of care experience to meet everyone's needs. We know that the best care starts with a deeply instilled belief that tiny details are important, that's why we create a highly personalised care experience for each and every one of our residents.

How we succeed

We work with a team of dedicated specialists to develop a bespoke care programme that includes: discovering personal interests and hobbies, making the right lifestyle choice and identifying how best we can enhance independence, wellbeing and choice.

Every room at The Shelley has been designed with this in mind. From the moment you enter our home, there is a feeling of being welcomed into a warm, inviting and luxurious home. Small touches such as books, daily newspapers and magazines, fireplaces, beautiful throws and cushions and an eclectic range of accessories make everyone feel comfortable and at home. We also like to encourage our residents to personalise their bedroom suites by bringing with them their favourite pieces of furniture, mementoes and artwork.

The professional care team works to provide the best in care experiences where everyone has a role to play led by the principles of kindness, empathy, integrity, respect, trust and dignity.

Your dining choices

We know good food makes people happy and is essential to health and wellbeing. We like to ensure that every one of our residents enjoys a highly varied range of delicious, wholesome food. We also know how important a healthy, nutritious and varied menu is for our residents and high quality food is something we take very seriously. Our chefs consult regularly with the residents to ensure they understand the food preferences and requests. We like to ensure everyone's personal and favourite dining preferences and dietary requirements are

met while using freshly cooked, appetising and nutritionally balanced meals with locally sourced, seasonal choices. We also enjoy celebrating special occasions and organising favourite treats, functions and themed events.

As well as serving three delicious meals every day with complimentary juices, beers, wines and sherry, residents have access to drinks and snacks throughout the day and night. We are happy to discuss any particular dietary requirements you may have – we cater for a range of special diets and allergens.

I cannot speak highly enough of The Shelley,

Your personal care and support needs

Our guiding principle in everything we do is to enrich the lives of our residents by providing the very best in personalised care.

In order to fully understand our residents' specific needs and expectations, we work closely in partnership with our residents and their families to develop a bespoke plan of care before any admission.

Each programme of care includes identifying how we can enhance your independence.

You may wish for assistance in bathing or dressing, or maybe just someone to run some errands. Above all, we will be looking after your general wellbeing, supporting you in improving and enhancing your quality of life while developing opportunities to build an enjoyable social life and companionship.

We focus on creating a stimulating mix of activities, which relax, promote a sense of wellbeing and

enable personal growth and independence through new experiences. We listen carefully to our residents and their families to ensure hobbies of old, favourite trips or personal celebrations are organised. We strongly believe in the joy of learning and the power of laughter and strive to ensure families and friends communicate and socialise regularly. We are proud of our residents and encourage intergenerational learning as we feel that they have much to offer the local community. Our events programme also includes trips to areas of interest and local beauty for everyone to enjoy.

We offer a wide range of activities including visits from our furry and feathered friends – from goats and dogs to owls and other birds of prey – magicians, a host of entertainers ranging from vocalists and musicians to a 25-piece choir and professional West End singers. There are art and craft workshops, exercise classes, relaxation, yoga classes, bridge afternoons, games and quizzes to name a few.

We also offer lunch clubs, individual shopping trips and plentiful group outings to local places of interest throughout Sussex, the theatre, the beach and community events.

Enjoy the facilities on hand, the extensive programme of entertainment and fun-filled activity calendar or just sit back and relax with a delicious cappuccino or latte from The Café with the morning paper or simply enjoy afternoon tea and homemade cakes with friends. The choice is yours.

We create easy ways for residents to stay in touch with friends and family with a number of events and activities that everyone can participate in.

We want our residents to be happy, live full and independent lives and enjoy taking part in engaging activities that are tailored to individual choices and lifestyle preferences.

Ipads and a computer are available to allow you to surf the web or keep in touch with your family and friends via email or Skype. We will give you simple tuition to get you started and complimentary Wi-Fi is available throughout the home.

We offer a range of bedroom suites, all beautifully designed with an emphasis on luxurious homely touches. Our staff – truly our greatest asset – are compassionate and wholly committed to making a difference. We have a low staff turnover, high job satisfaction and we offer all our staff intensive training. Getting to really know the residents is paramount in supporting them to enjoy all the little things that turn a good day into a great day, while delivering outstanding relationship-centered care.

Bookable respite

Another unique feature of The Shelley is our bookable respite room for individuals who may require a short break away from their own home, require convalescence following hospital treatment, or perhaps are uncertain about moving into a care home. We will always try to accommodate residents' needs and be flexible in terms of the length of their stay while making sure that all their needs and expectations are met during their time with us.
